

HISTORY REPEATS

To curb extravagance, Lycurgus forbade the Spartans to dine at their own homes.

And ordered that all should eat together of the same wholesome food at public tables.

For the same excellent reason, Americans are more and more adopting the Spartan mode of dining.

As is evidenced by the ever increasing popularity of the CHILDS restaurants.

Corned beef hash, browned in the pan, and topped with a freshly poached egg—a home-like specialty.

BARUCH'S PART LARGE
His Staff of Experts Said to
Have Had Allotment of
\$150,000.

Special Despatch to THE NEW YORK HERALD.
New York Herald Bureau,
Washington, D. C., March 9.

Woodrow Wilson before leaving office failed to give to Congress itemized statements of the expenditures in Paris of the American Commission to negotiate peace which twice were demanded by the House in resolutions sent to the President.

This was revealed to-day when Representative Good (Iowa) made public Mr. Wilson's report on the expenditures of the two national defense funds of \$100,000,000 and \$50,000,000 which were voted to him during the war and part of which he used to defray expenses of the American delegates to the peace conference. The report, comprising about 100 pages, was sent to the House in the closing days of the last session, but its printing was delayed by the jam in the Government Printing Office.

Mr. Wilson submitted a letter from former Secretary of the Treasury Houston indicating that if Congress desires an itemized account it will have to be obtained during the Republican Administration. Mr. Houston explained that the two appropriations were made revolving funds to some degree and that reimbursements of allotments made by Mr. Wilson still are being received. He said it would be three months at least before a complete audit could be made and the exact expenditures shown.

Charges were made in the House last session that large amounts were spent by the American delegates and other officials for entertainment. It was said these amounts were hidden under lump sum allotments. In response to a resolution Mr. Wilson submitted vouchers paid during the stay in Paris. This was held to be unsatisfactory, and the second resolution passed. To this the former President again submitted his first report and statements showing in a general way the allotments made under the defense funds.

The report showed that the net disbursements under the two funds now stands at \$114,742,516. Total allotments were about \$214,000,000, thus indicating that nearly \$100,000,000 was returned in the form of reimbursements.

Among the Russian allotments were: Educational work in Russia, \$3,000,000; high commission to Russia, \$50,000; military commission to Russia, \$1,000,000; Stevens commission to Russia, \$27,278; purchase of Russian supplies, \$3,000,000; supplies civilians, Archangel district, \$5,000,000; investigation of special problem of Russian peasant, \$25,000; transportation of Russian railway service corps to Siberia, \$15,000; maintenance trans-Siberian and Chinese railways, \$4,500,000.

The report also reveals that Bernard M. Baruch received an allotment of \$150,000 as technical adviser at the peace conference. This, it is understood, was for the large staff of experts who accompanied him.

Soviets Put Up Bars on
Russians From America

LONDON, March 9.—Representatives of the Bolsheviks in Riga have received instructions from Moscow not to repatriate any more Russians returning from the United States, according to a Riga despatch.

The Tenth Congress of the Russian Communist party opened at Moscow yesterday under difficult circumstances, says a wireless message from Moscow, which adds: "The republic is surrounded by an endless number of enemies. The short breathing space given Russia has been interrupted by new Entente intrigues. The tasks confronting the republic must be carried through at a time when she is struggling against counter-revolutionaries."

HARDING ASKED TO GIVE
FOOD AND MONEY AID

Appeal Also Sent to Hoover
by Anti-Reds.

Special Cable to THE NEW YORK HERALD.
Copyright, 1921, by THE NEW YORK HERALD.
New York Herald Bureau,
Paris, March 9.

President Harding has been appealed to by the anti-Bolshevik Russians here to end the Lenin-Trotsky regime by granting food and financial assistance to the Whites, whose success depends entirely on whether they can outlast hunger longer than the Moscow Government.

In a cablegram which has been sent to the President by Alexander Goutchoff, director of the Russian Red Cross Societies, Mr. Harding has been informed that the new movement is entirely one coming from the interior of Russia and was not formed by any political group chased from Russia by the Bolsheviks. It is urged that there be put at the disposition of Gen. Kozlovsky's temporary government at Kronstadt 5,000 tons of foodstuffs belonging to the Hoover relief organization and held in Finland for the relief of Russian sufferers.

Mr. Goutchoff also has applied to Mr. Hoover for his support, declaring the advance bears all the earmarks of success and is considered by all Russia's friends here as marking the beginning of Russian Communism's end.

He attaches importance, however, to the suggestion of not sending military aid, inasmuch as this is likely to defeat the purpose of the Whites by discrediting the leaders in the eyes of the Russian people, who have been told the movement is not imperialistic in design.

Rumors have been current in Paris since yesterday that Alexandre Kerensky is on his way to Reval to assume the political direction of the revolt in cooperation with Gen. Kozlovsky. But the New York Herald correspondent has been authorized by the Kerensky headquarters here to state that not only is Kerensky not going to Reval but he is urging other Russians here to sit tight and render whatever financial aid and influence they have until Petrograd is again in the hands of the people's elected representatives.

Kerensky himself is in London, where he is expected to make an appeal to Premier Lloyd George similar to that M. Goutchoff has sent to President Harding.

DEATH WARNINGS
IGNORED BY DATO

Spanish Premier Said "Such
Are the Risks of the
Trade."

SLAYERS SHOWED SKILL

Kept Pace With Automobile
in Motorcycle While They
Poured in Volleys.

MADRID, March 9.—El Imparcial publishes a report that the assassination of Premier Dato was planned in Paris. It says that Senor Dato received a cipher communication from Paris several days ago informing him that Spanish anarchists intended to carry out a sensational crime in reprisal for the suppression of the recent disorders in Barcelona, and that they were only awaiting a favorable moment.

According to another account Premier Dato was warned that an attack was contemplated against him and King Alfonso. The Premier, however, refused to be accompanied home by an aide-de-camp, saying that such were "the risks of the trade."

The police have organized a search for the assassins and have ordered the detention of all motorcycles and automobiles, but their efforts had proved fruitless up to this evening. A youth named Julian is being held on suspicion that he knows something of the attack, but it does not appear that he was an accomplice.

Witnesses of the shooting say that two motorcycles were employed, one blocking the way of the Premier's automobile while the other carried the assassins. An official report says the assassins are believed to have been Syndicalists.

Premier Dato left the Senate Chamber at 8:30 o'clock and entered his car, which was waiting for him. The machine was driven through Calle Arago to Puerta del Sol and thence through Calle de Alcalá. A motorcycle with a side car carrying two men had followed the Premier's motor unnoticed. When the Premier's car had reached Plaza Independencia, near Senor Dato's home, the motorcycle increased its speed and approached the side of the Premier's automobile.

When the motorcycle had drawn up even with the automobile the two men in the side car and the driver of the machine opened fire upon the Premier, twenty-one shots being discharged. The whole tragedy was enacted in a few moments and as the last shot rang out the motorcycle swung into a side street and vanished.

The driver of the Premier's car, hearing the firing, increased his speed, but the Premier shouted: "I am wounded; stop the car." The chauffeur found the Premier terribly wounded about the head, but able to speak. The driver leaped to his seat and drove to a dispensary nearby, where first aid was administered. Senor Dato was conscious when taken from the automobile, but collapsed in a few minutes and died while at the dispensary.

The funeral will take place Thursday. The King wished to pay honors to the dead Premier similar to those paid to former Premier Canalejas y Mendez, but the family demurred, desiring to fulfill the last wish of the Premier, who asked only that the body be wrapped in the Spanish flag and buried with simple ceremonies. It is understood, however, that the title of Duke will be conferred.

In explaining the failure to protect the Premier, the police authorities point out that they are not supplied with modern appliances for the prevention of crime; they lack motorcycles, and the two policemen guarding the Premier's car were mounted on ordinary bicycles, which were unable to keep pace with the fast automobile.

POPE BENEDICT PRAISES
CARDINAL DOUGHERTY

Philadelphia Prelate Thanks
Pontiff for Honor.

ROME, March 9.—Pope Benedict today imposed upon the Cardinals created at the secret consistory on March 7 the red biretta as the first tangible proof of the supreme dignity which has been conferred upon them. This will be completed by conferring the red hat in the public consistory to-morrow.

The Pope made a brief speech exalting the merits of each of the new Cardinals. Referring to Cardinal Dougherty he recalled his devotion as bishop both in the Philippines and America and his admirable administrative powers. Cardinal Dougherty, as the dean of the newly elected Cardinals, delivered an address to the Pope in which he thanked him also in the name of the other new Cardinals for the great honor which he had done them.

Pope Benedict has made Cardinal Dougherty the titular Archbishop of the Church of Saints Nereus and Achilleo, which was built in the year 800 by Pope Leo III, and restored for the oratorians in 1597 by Cardinal Baronius.
